Subject: RE: trading/offsets/phase III WIPs

Trading and offsetting will be referred to in our WIP as a method used by NPDES permitted facilities to help meet established nutrient cap load requirements as written into existing NPDES permits, but it is not expected to be a major element of our plan to address our overall TMDL goals.

Doug

Subject: trading/offsets/phase III WIPs

Hi All,

Just wanted to ask you if there is any information/assistance that you may need regarding your plans to incorporate trading and offsets in your Phase III WIPs. I know that it's very early but do you have any sense whether the use of trading and offsetting will be part of your Phase III WIPs?

Thanks,
Pat
